

Limb Preservation JOURNAL

CALL FOR PAPERS | CALL FOR REVIEWERS

SERVING THE TOTAL LIMB PRESERVATION COMMUNITY

The *Limb Preservation Journal* is an international peer-reviewed online journal dedicated to providing the latest research, expert experiences and clinical insights; examining new procedures and technologies and promoting a collaborative interdisciplinary approach to limb preservation. A key objective is to help to translate the latest evidence into improved best practices. Published annually with regular updates, the *Limb Preservation Journal* reaches a diverse audience of health-care professionals and others working in this important area.

Launched in 2019 as *Limb Preservation in Canada*, the journal is the cornerstone of a limb preservation community that, in addition to clinicians, educators and researchers, includes patients, advocates, administrators and policy makers. Recognizing that the challenges associated with limb preservation are global and impact health-care professionals around the world, and identifying the lack of a dedicated clinical publication, the *Limb Preservation Journal* has expanded its scope to also invite submissions from the international limb preservation community.

CIRCULATION

- Physicians
- Nurses
- Chiropodists
- Podiatrists
- Pedorthists
- Physiotherapists
- Occupational Therapists
- Case managers
- Researchers
- Policy makers
- Administrators

Over 10,000 cumulative downloads per issue!

We invite interested parties to submit original high-quality papers in English for review and possible publication in the *Limb Preservation Journal*. We are also looking for interdisciplinary experts in the field who are interested in reviewing articles submitted to the journal.

The *Limb Preservation Journal* is supported and reviewed by an eminent group of editors and reviewers. The Editorial Board is composed of published academics, clinicians and related authorities. The Board oversees the stringent peer-review process including evaluating submissions, selecting reviewers, assessing their comments and making the final editorial decisions and recommendations to authors. Published articles are assigned a DOI number.
