

Limb Preservation JOURNAL

CALL FOR PAPERS | CALL FOR REVIEWERS

SERVING THE TOTAL LIMB PRESERVATION COMMUNITY

Launched in 2019 as *Limb Preservation in Canada*, the journal is the cornerstone of a limb preservation community that, in addition to clinicians, educators and researchers, includes patients, advocates, administrators and policy makers. Recognizing that the challenges associated with limb preservation are global and impact health-care professionals around the world, and identifying the lack of a dedicated clinical publication, the *Limb Preservation Journal* has expanded its scope to also invite submissions from the international limb preservation community.

CIRCULATION

TOPICS OF INTEREST

- Healthcare providers
- Therapists
- Researchers
- Administrators
- Policy makers
- Healthcare professionals

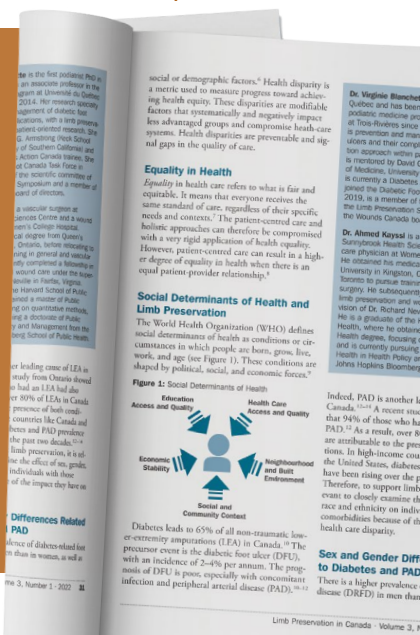

- Research
- Case Reports
- Reviews
- Perspectives
