

## Poster Café Final Schedule in the Exhibit Hall

**Thursday, September 28<sup>th</sup> – 5:30pm – 7:30pm**

<b>Time</b>	<b>Presenter</b>	<b>Poster Number/Title</b>
5:30pm	Catharine Liang	0029: Quantifying Surgical Site Infection Rates in Ontario Using Health Administrative Data
5:37pm	Dr. Debashish Chakravarthy	0030: Effect of a Lipidocolloid Dressing on Extracellular Matrix Synthesis
5:44pm	Michelle Barker	0016: Incorporating Advanced Wound Imaging into a Nurse-led Wound Care Inter-Professional Team
5:51pm	Margaret Penchoff	0009: Improving Capture of Pressure Injuries in Acute Care Inpatient Hospital Data to Support Quality of Care
5:58pm	Jill Gould	0041: Evaluation of a prescribing consultation model
6:05pm	Dr. Jany-Eve Allard	0037: Quality of life and perception of care in individuals with diabetic foot ulcer in a suburban area: Preliminary results
<b>BREAK</b>	<b>BREAK</b>	<b>BREAK</b>
6:19pm	Dr. Janet Kuhnke	0003: Preliminary Findings of the Wound Care Champion Program: An Innovation in Wound Care Education in Canada
6:26pm	Dr. Paul Gratzner	0020: Three Cases of Enhanced Healing of Hard to Heal Wounds Using a Novel Tissue Regenerative Matrix
6:33pm	Julie Huynh	0047: Continuous Diffusion of Oxygen Therapy for a Pressure Injury: A Case Study
6:40pm	Dr. Karen Cross	0025: Focus on quality of life with older adults receiving mobile footcare and social support services at home
6:47pm	Dr. Karen Cross	0024: Older Adults Aging in Place: The impact of remote monitoring and education in the prevention of lower extremity wounds
6:54pm	Dr. Karen Cross	0023: Assessing a wound's neovascularization in real time using multispectral near-infrared imaging
7:01pm	Dr. Karen Cross	0022: Investigating Reasons for Healing and Non-Healing Ulcers Using Multispectral Near-Infrared Spectroscopy: A Case Series
7:08pm	Magda Kitto and Holly Burton	0010: One size doesn't fit all: a collaborative approach incorporating validated low air loss

## Poster Café Final Schedule in the Exhibit Hall

		pressure redistribution surface for effective client outcomes
--	--	---

### Friday, September 29th – 9:55 – 10:55am

Time	Presenter	Poster Number/Title
9:55am	Holly Murray	0038: Healing rate and time to closure of VLU: a real-world evaluation of a Muscle Pump Activator (MPA) device as an adjunct to compression therapy
10:02am	Dr. Debashish Chakravarthy	0031: A Large Real-life Study on the Use of a Novel Gentle Silver Antimicrobial Barrier Dressing, TLC-AG* in the Management of Wounds During the COVID-19 Pandemic
10:09am	Dr. Kathleen Stevens	0035: Promoting Foot Self-Assessment and Self-Management with a Commercially Available Infrared Thermometer: Findings of a Mixed Methods Study
10:16am	Catherine Méthot	0039: Implementing needle flexor tenotomies as a simple solution for treating apical ulcers in neuropathic feet
10:23am	Suzanne Moloney	0050: Impact of adhesive-free wound dressing system on patient quality of life and dressing-related pain in hidradenitis suppurativa patients: pilot study
10:30am	Misha Jadoo and Marlene Varga	0011: A Pressure Injury Prevention (PIP) Quality Improvement (QI) Pilot of Sub-Epidermal Moisture (SEM) Scanning in Acute Care
10:37am	Marlene Varga	0018: Alberta Atlas of Healthcare Variation: Pressure Injuries in Long Term Care

### Friday, September 29th – 4:30pm – 6:30pm

Time	Presenter	Poster Number/Title
4:30pm	Karim Jack	0012: Interprofessional Wound Care Team Competency Framework: Results from a Canadian adapted e-Delphi Study
<b>BREAK</b>	<b>BREAK</b>	<b>BREAK</b>
4:44pm	Angela Arsenault	0017: Muscle Pump Activator (MPA) Device: A Case Study in Managing a Non-Healing Lower Leg Wound and Pain
4:51pm	Rosemary Hill	0040: Efficiency of New Smart Instillation Technology with Negative Pressure Wound Therapy in Managing Complex Chronic and Surgical Wounds: Case Series

## Poster Café Final Schedule in the Exhibit Hall

4:58pm	Rosemary Hill	0014: Dressed for Success? Prevention of Radiation Induced Skin Breakdown in Breast Cancer Patients Using Soft Silicone Film Dressings: Results of a Case Series with Patient Reported Outcomes
5:05pm	Rosemary Hill	0015: Troublesome Persistent Eschar? Consider a hydrophilic wound dressing to assist autolytic debridement: A case series of 6 different wound etiologies
5:12pm	Rosemary Hill	0027: Making Orthotic Offloading Devices Accessible for People with Diabetic Foot Conditions
5:19pm	Dr. Giulio Brunetti	0034: Validation of a sub-epidermal moisture scanner for early detection of pressure ulcers in an <i>ex vivo</i> porcine model of localized oedema
5:26pm	Allison Da Silva	0026: Keys to Sustainable Pressure Injury Prevention in ICU: Interdisciplinary Collaboration and Engagement

### Saturday, September 30th – 9:55am – 10:55am

Time	Presenter	Poster Number/Title
9:25am	Sandy Sudama and Cindy Dickson	0042: Use of a Novel Human Decellularized Dermal Matrix for Chronic Wounds: A Case Series.
9:32am	Jack Wan	0045: Muscle Pump Activator (MPA) Device: A Case Study on Limb Salvage in a Patient with Critical Ischemia and Non-healing Ulcers
9:39am	Priscilla Packiam	0036: Developing a Best Practice Guideline on Risk Assessment, Prevention and Treatment of Pressure Injuries
9:46am	Professor Zena Moore	0008: The Relationship Between Sub Epidermal Moisture (SEM) Measurement and Inflammatory Markers in the Early Identification of Pressure Ulcers
9:53am	Professor Declan Patton	0004: The impact of prone positioning on the incidence of pressure injuries in adult intensive care unit patients: a meta-review of systematic reviews
10:00am	Professor Declan Patton	0005: A meta-review of the impact of compression therapy on venous leg ulcer healing
10:07am	Professor Declan Patton	0006: Nurses' attitudes towards pressure ulcer prevention and the development of educational approaches to meet attitudinal needs.
10:14am	Professor Tom O'Connor	0007: The impact of pressure ulcer prevention education on health care assistants' knowledge and skills and pressure ulcer incidence in long-term care settings
10:21am	Dr. Marion Lyver	0044: Use of Continuous Diffusion of Oxygen in a Non-Healing Wound due to Radiation-Induced Injury
