Ostomy Care 101</b> <i>Facilitators: Britney Butt, Rosemary Hill, Lina Martins</i> <i>This session is presented in collaboration with NSWOCC</i> <b>NF Hilton Hotel – Angel Falls Ballroom</b></div></div></div>

This advanced workshop is aimed at prescribers who are experienced in conservative sharp wound debridement and wish to explore surgical sharp debridement. Developed for primary care practitioners, this workshop will offer a hands-on introduction to biopsy, suturing and bedside sharp debridement. For those with less experience or who cannot independently initiate wound biopsy, suturing or sharp debridement, consider the Skills Lab for Local Wound Care (A100NWS).

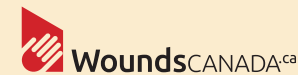

Back by popular demand, this hands-on workshop, developed and delivered by Nurses Specialized in Wound, Ostomy and Continence Canada, is ideal for frontline nurses who wish to learn and practise basic ostomy care.
