The Canadian Association of Wound Care is a non-profit organization of health-care professionals, industry participants, patients and caregivers dedicated to the advancement of wound care in Canada.

The CAWC was formed in 1995, and its official meeting is the CAWC annual conference held in Canada each year. The association's efforts are focused on five key areas: public policy, clinical practice, education, research and connecting with the international wound-care community. The CAWC works to significantly improve patient care, clinical outcomes and the professional satisfaction of wound-care clinicians.

L'Association canadienne du soin des plaies est un organisme sans but lucratif regroupant des professionnels de la santé, des gens de l'industrie, des patients et des membres du personnel soignant fortement intéressés à l'avancement des connaissances pour le soin des plaies au Canada.

Fondée en 1995, l'ACSP organise, chaque année, au Canada, un congrès qui lui tient lieu de réunion officielle, le Congrès annuel de l'ACSP. L'association consacre ses efforts dans cinq domaines particuliers : les politiques gouvernementales, la pratique clinique, la formation, la recherche et la création de liens avec la communauté internationale directement impliquée dans le soin des plaies. L'Association canadienne du soin des plaies vise une amélioration significative du soin donné au patient, des résultats cliniques et de la satisfaction professionnelle des spécialistes en soin des plaies.

Wound Care Canada is published twice a year by BCS Communications Ltd., on behalf of the Canadian Association of Wound Care. Canada's first publication devoted entirely to wound care, *Wound Care Canada* addresses the needs of clinicians, patients, caregivers and industry.

All editorial material published in *Wound Care Canada* represents the opinions of the authors and not necessarily those of the Canadian Association of Wound Care.

Discussions, views and recommendations as to medical procedures, choice of treatments, dosage or other medically specific matters are the responsibility of the authors. No responsibility is assumed by the publisher or publishing partners for any information, advice, errors or omissions contained herein.

The inclusion of advertising and sponsored material in *Wound Care Canada* does not constitute a guarantee or endorsement of any kind by the Canadian Association of Wound Care.

All rights reserved. Contents may not be reproduced without written permission of the publisher. Printed in Canada. The publisher warrants that the deduction of advertising costs for advertising in this periodical is not restricted by Section 19 of the *Canadian Income Tax Act*. Advertisers who file Canadian tax returns can claim the advertising cost of this publication as a business expense. (c) 2004.

Special thanks to Smith & Nephew for augmenting the *Wound Care Canada* mailing list.

Now you can make more than an educated guess

When you're tracking the progress of wound healing, you need a consistently accurate approach. But with existing methods, it's been difficult to improve on making an educated guess.

Now there's new **VISITRAK** – the wound measurement system that uses precise wound area measurements, offering an accurate, quick and consistent means of tracking wound progress.

By providing the first standardised approach, **VISITRAK** makes it easier for you to reach treatment decisions, promoting best practice and better outcomes in wound management.

Now you can be reassured you are making an educated decision.

For additional information, contact our sales representative or the Customer Action Center at **1-800-463-7439**.
