The Canadian Association of Wound Care is a non-profit organization of health-care professionals, industry participants, patients and caregivers dedicated to the advancement of wound care in Canada.

The CAWC was formed in 1995, and its official meeting is the CAWC annual conference held in Canada each year. The association's efforts are focused on five key areas: public policy, clinical practice, education, research and connecting with the international wound-care community. The CAWC works to significantly improve patient care, clinical outcomes and the professional satisfaction of wound-care clinicians.

L'Association canadienne du soin des plaies est un organisme sans but lucratif regroupant des professionnels de la santé, des gens de l'industrie, des patients et des membres du personnel soignant fortement intéressés à l'avancement des connaissances pour le soin des plaies au Canada.

Fondée en 1995, l'ACSP organise, chaque année, au Canada, un congrès qui lui tient lieu de réunion officielle, le Congrès annuel de l'ACSP. L'association consacre ses efforts dans cinq domaines particuliers : les politiques gouvernementales, la pratique clinique, la formation, la recherche et la création de liens avec la communauté internationale directement impliquée dans le soin des plaies. L'Association canadienne du soin des plaies vise une amélioration significative du soin donné au patient, des résultats cliniques et de la satisfaction professionnelle des spécialistes en soin des plaies.

CLINICAL PRACTICE

Surgical Site Infections in Community Care Clients:

Early Detection and Rational Care through Recognition of Client-specific Risk Factors 10

Practical Scar Care:

A Summary of the Latest Therapeutic Approaches.....14

PUBLIC POLICY

The Extent of Chronic Wounds in Canada:

What We Know and What We Don't Know18

The Challenges of Providing Cost-effective Quality Wound Care in Canada:

Identifying Initiatives to Control Quality and Cost-effectiveness..... 22

RESEARCH

How to Write an Abstract:

A Professional's Guide to Writing Clear, Concise Clinical or Laboratory Research Summaries 30

EDUCATION

Distance Education:

The Canadian Enterostomal Therapy Nursing Education Program Model 34

Wound Care Canada is published twice a year by BCS Communications Ltd., on behalf of the Canadian Association of Wound Care. Canada's first publication devoted entirely to wound care, *Wound Care Canada* addresses the needs of clinicians, patients, caregivers and industry.

All editorial material published in *Wound Care Canada* represents the opinions of the authors and not necessarily those of the Canadian Association of Wound Care.

Discussions, views and recommendations as to medical procedures, choice of treatments, dosage or other medically specific matters are the responsibility of the authors. No responsibility is assumed by the publisher or publishing partners for any information, advice, errors or omissions contained herein.

The inclusion of advertising and sponsored material in *Wound Care Canada* does not constitute a guarantee or endorsement of any kind by the Canadian Association of Wound Care.

All rights reserved. Contents may not be reproduced without written permission of the publisher. Printed in Canada. The publisher warrants that the deduction of advertising costs for advertising in this periodical is not restricted by Section 19 of the *Canadian Income Tax Act*. Advertisers who file Canadian tax returns can claim the advertising cost of this publication as a business expense. (c) 2005.

Special thanks to Smith & Nephew for augmenting the *Wound Care Canada* mailing list.

For open surgical wounds,
Count on AQUACEL Ag[®]
Hydrofiber[®] Dressing with Silver

Advancing the management of wounds at risk of infection with
the unique combination of silver and Hydrofiber[®] technology

- Rapid action of ionic silver against a broad spectrum of pathogens in the dressing on contact^{††}
 - Provides antimicrobial activity in the dressing for up to 7 days*
- Forms a cool gel sheet on contact with drainage to create a moist wound environment that supports the healing process
- Supports nontraumatic application and removal of the dressing without damaging newly formed tissue
- Can be changed daily or left in place for up to 7 days*

Think of it as silver made smarter

For more information, call the ConvaTec Customer Relations Center at 1-800-465-6302, Monday through Friday, 8:00 AM to 7:00 PM (EST), or visit our Web Site at www.convatec.com or www.aquacelag.com

*Please see package insert for full product information, including Instructions for Use.

^{††}*In vitro* testing, using simulated wound fluid model.
