The Canadian Association of Wound Care is a non-profit organization of health-care professionals, industry participants, patients and caregivers dedicated to the advancement of wound care in Canada.

The CAWC was formed in 1995, and its official meeting is the CAWC annual conference held in Canada each year. The association's efforts are focused on five key areas: public policy, clinical practice, education, research and connecting with the international wound-care community. The CAWC works to significantly improve patient care, clinical outcomes and the professional satisfaction of wound-care clinicians.

L'Association canadienne du soin des plaies est un organisme sans but lucratif regroupant des professionnels de la santé, des gens de l'industrie, des patients et des membres du personnel soignant fortement intéressés à l'avancement des connaissances pour le soin des plaies au Canada.

Fondée en 1995, l'ACSP organise, chaque année, au Canada, un congrès qui lui tient lieu de réunion officielle, le Congrès annuel de l'ACSP. L'association consacre ses efforts dans cinq domaines particuliers : les politiques gouvernementales, la pratique clinique, la formation, la recherche et la création de liens avec la communauté internationale directement impliquée dans le soin des plaies. L'Association canadienne du soin des plaies vise une amélioration significative du soin donné au patient, des résultats cliniques et de la satisfaction professionnelle des spécialistes en soin des plaies.

### The CAWC Gets a New Home

Earlier this year, the CAWC moved into new offices to accommodate our recent expansion. As a result, the CAWC has a new mailing address. Please update your contact list so you can stay in touch!

# 3M™ Coban™ 2 Layer Lite Compression System

Designed with Intelligent Compression Dynamics

Engineered to be  
Safe, Comfortable  
and Effective

A graphic element featuring a green rounded rectangle containing a photograph of a medical professional's hands in purple gloves applying a white compression bandage to a patient's leg. The background is a green gradient with faint, wavy white lines resembling an ECG or pulse trace.

3M™ Coban™ 2 Layer Lite Compression System reduces the risk of tissue damage on mixed venous and arterial disease patients with ABPI of 0.5 – 0.8 mmHg. This patented two-layer compression system is clinically proven to:

- Be safe, comfortable and effective
- Provide sustained compression for up to 7 days
- Be preferred by patients for comfort
- Be easy to apply
- Enable patients to wear their ordinary footwear and clothing

3M™ Coban™ 2 Layer Lite Compression System is latex free.

To learn more about 3M™ Coban™ 2 Layer Lite Compression System products, visit us at [www.3M.com/coban2layer](http://www.3M.com/coban2layer), contact your 3M Skin Health representative or call the 3M Health Care Customer helpline at **1 800 364-3577**. These products can be ordered from your local distributor.
