Best Practice Recommendation articles from the Canadian Association of Wound Care

As part of a suite of resources called **Foundations of Best Practice for Skin and Wound Management**, and based on the new Wound Management Cycle, these articles provide a synthesis of Canadian and international guidelines and incorporate the latest evidence into easy-to-use resources for the bedside clinician.

Visit the CAWC website starting in January 2017 to view and download:

- Skin: Anatomy, Physiology and Wound Healing
- Best Practice Recommendations for the Prevention and Management of Wounds
- Best Practice Recommendations for the Prevention and Management of Pressure Injuries
- Best Practice Recommendations for the Prevention and Management of Diabetic Foot Ulcers
- Best Practice Recommendations for the Prevention and Management of Skin Tears
- Best Practice Recommendations for the Prevention and Management of Surgical Wound Complications
