About AbbVie

AbbVie is a global, research-driven biopharmaceutical company committed to developing innovative advanced therapies for some of the world's most complex and critical conditions. The company's mission is to use its expertise, dedicated people and a unique approach to innovation to markedly improve treatments across four primary therapeutic areas: immunology, oncology, virology and neuroscience. In more than 75 countries, AbbVie employees are working every day to advance health solutions for people around the world. For more information about AbbVie, please visit us at www.abbvie.ca and www.abbvie.com. Follow @abbvieCanada and @abbvie on Twitter or view careers on our Facebook or LinkedIn page.

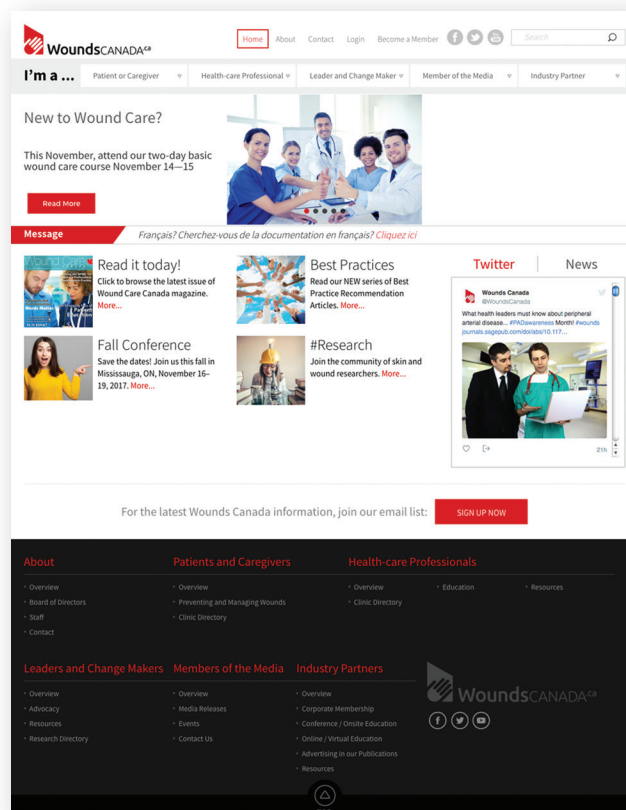

Making a Difference in the Journey of Life

At Hollister Incorporated, our Mission is to make life more rewarding and dignified for the people who use our products and services. This Mission is based on our unwavering commitment to our customers and to each local community. We work in the health-care industry, developing innovative medical products and services for health-care professionals and the people they serve. Our ultimate promise and the overriding commitment of every Hollister Associate is to make a positive difference in the life journeys of the people and communities we serve.

In wound care, Hollister continues its tradition of innovation with Hydrofera Blue READY, demonstrating once again that advanced, innovative medical products can both improve the lives of people who need those products and demonstrate improved outcomes. The Hydrofera Blue portfolio of products allows clinicians to manage wounds that oftentimes are very problematic, and when those wounds are healed, we are reminded about why we do what we do. Please see our [advertisement](#) in this issue of Wound Care Canada.

Wounds Canada Website

Canada's hub for wound resources

Wounds Canada is the leading wound-related knowledge mobilization organization in Canada.
