

The Hydrofiber® Difference

The Hydrofiber® Technology you trust, combined with the healing power of NPWT for up to 30 days.

- Interactive Hydrofiber® Technology dressing gels on contact with wound fluid and locks in bacteria within it^{1,2} to create a moist wound healing environment.³
- Single patient use pump with 30-day lifespan* delivers 80mmHg (± 20 mmHg) for continuous NPWT to the wound bed.

Experience the benefits of NPWT with Hydrofiber® Technology and see how the Avelle™ NPWT System can improve your clinical practice and enhance patient care.
