Hydrofera

Hydrofera® produces a unique line of non-cytotoxic antibacterial wound dressings utilizing its proprietary PVA and PU foam technology. From onset to outcome, the Hydrofera Blue® suite of dressings power-

Hydrofera®

fully tackles any type of chronic or non-healing wound, with each dressing designed to shorten healing times, lower treatment costs and deliver better patient outcomes.

Hydrofera Blue manages ALL 4 factors of local wound care (DIME):

- Debrides and Disrupts biofilm
- Infection and Inflammation
- Moisture
- Edge Effect

The NEW Hydrofera Blue READY-Border® dressing provides the perfect option for atraumatic dressing changes. It's different. It's non-cytotoxic and has no silicone interface over the foam pad, allowing for intimate contact of the foam to the wound bed, which facilitates uninterrupted exudate absorption. The gentle contact of foam, with its natural healing and protective properties, provides an added measure of safety to help prevent infection and aid in the healing process. The NEW Hydrofera Blue READY®-Transfer does just that—it absorbs bacteria-laden exudate into the dressings where the bacteria are effectively killed, then transfers the exudate out and away from the wound. The Transfer dressing is ideal over VLU's, under TCCs and compression and between digits and toes.

Try the Hydrofera Blue CLASSIC® Heavy Drainage with NPWT and the regular CLASSIC under disposable NPWT. Hydrofera Blue® can be applied over bone and tendon, in tunnels and undermining while providing added wicking, antibacterial protection, and can help flatten rolled wound edges.

To request samples of Hydrofera Blue® products, email daniel@hydrof.com.

Integra LifeSciences

Integra LifeSciences, a global leader in medical technology, is dedicated to limiting uncertainty for clinicians so they can concentrate on providing the best patient care. Integra offers innovative solutions in advanced wound care, regenerative technologies, neuro-

surgery and specialty surgical, saving and sustaining lives around the world.

Integra is focused on research and innovation for the management of acute and chronic wounds and burns. We provide a comprehensive suite of evidence-based products designed to support patients' natural restorative healing process and clinicians' goals of healing wounds efficiently and effectively at every stage of the wound-healing process. We strive to provide quality solutions to achieve the highest level of customer satisfaction.

Integra's Advanced Wound Care portfolio includes MediHoney®, the global leading medical-grade honey-based product line for the management of wounds and burns and TCC-EZ® Total Contact Cast System, which offers a one-piece, roll-on, lightweight, woven design that is faster and easier than traditional systems. TCC-EZ's ease of application can lead to fewer complications.

Mölnlycke

World-Leading Medical Solutions Company with a Swedish Heritage

Around the world, health-care systems and professionals are under pressure to deliver better care, to more people, for better value. They need innovative solutions they can trust. That's where we come in. We're here to advance performance in health care. So we're always on the lookout for new ways to improve. Our focus: providing effective solutions and offering better value for money.

We have one purpose—to advance performance in health care across the world—so that

The Medtronic logo, featuring the word "Medtronic" in a bold, blue, sans-serif font.The Mölnlycke logo, featuring three green circles of increasing size to the left of the word "Mölnlycke" in a green, sans-serif font, with a registered trademark symbol.

health-care professionals have what they need to achieve the best clinical, patient and financial outcomes.

But different health-care professionals have different needs. So we start by listening and making sure we understand them. Then we create solutions that are right for them and for their patients, and that are supported by evidence.

We contribute to advancing performance in other ways too: by sharing knowledge about our specialist clinical areas, and by helping to shape health-care policies and protocols to raise standards of care worldwide.

We have a strong commitment to health-care professionals. And we're proving it every day.

Although we're a global company our headquarters are still in Gothenburg, just a short distance from the town of Mölnlycke (pronounced *Mon-licka*), the place where the company was founded in 1849 and the origin of the Mölnlycke name.

Urgo Medical North America

Better healing—and living unhindered by wounds—is within reach for patients. Urgo Medical North America empowers and equips clinicians to make a difference in their patients' lives by providing innovative, proven wound care solutions that minimize the pain and burden of wounds, help more patients heal and close their wounds sooner. After establishing UrgoTul Ag as a first-class dressing for infected wounds, Urgo is now bringing two unique technologies to the Canadian market: Vashe Wound Solution to cleanse all your wounds and the interactive dressing UrgoStart Plus to reduce the burden of chronic wounds (diabetic foot ulcers, leg ulcers and pressure injuries).
