

# Leukoplast®

## Skin Sensitive Wound Care Solutions for Improved Healing

Essity now offers an even bigger range of skin sensitive wound care solutions for safer and more efficient treatment of fragile skin. These atraumatic wound dressings help avoid unnecessary injuries, pain and infections for better skin outcomes. Save treatment time and costs while helping to reduce the risk of adhesive-related skin damage with Leukoplast® skin-sensitive wound care solutions.

### Hypafix®

#### Skin sensitive wide area fixation

Secure fixation of wound dressings. Breathable to help prevent skin macerations. Easily adjusted to required size. High wearing comfort.

### Leukomed®

#### Skin sensitive absorbent dressing

Skin friendly with atraumatic removal. Reduced pain at dressing removal. Absorbs blood and wound fluid. Covers and protects wounds such as closed-surgical wounds, cuts and abrasions.

### Leukomed™ T

#### Skin sensitive transparent film dressing

Skin friendly atraumatic removal. Bacteria barrier and waterproof protection of post-operative and superficial traumatic wounds. Sterile fixation of primary dressings and compresses. Protection of non-secreting wounds from friction and shear forces.

### Leukomed™ T Plus

#### Skin sensitive transparent film island dressing

Skin friendly atraumatic removal. Bacteria barrier and waterproof protection of surgical incisions. Absorbs blood and wound fluid. Covers and protects superficial cuts, lacerations and minor burns.
