

Effective off the shelf pressure relief and off-loading

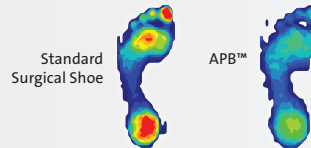

Excellent comfort for patients and outstanding results!

APB™ All Purpose Boot

The APB™ embodies nearly perfect four season postoperative protection with a closed-toe design that keeps dressings and toes warm and dry.

- › Relaxed rocker sole reduces plantar pressure by over 25%.
- › Ankle strap seats foot firmly in shoe.
- › Removable forefoot closure eliminates buckle pressure.
- › Insole features twice the padding of standard insoles and can be modified as needed.
- › EVA Sole - provides more rigidity, yet is lightweight and more durable.

For optimum off-loading:
Pair with the PQ PegAssist™

WCS™ Open-Toe & Closed-Toe

Replacement Insoles:
Sold Separately

Plastazote® Thickness 1/4" Durometer 26	→	
Medium Density EVA Thickness 1/4" Durometer 42	→	
Firm Density EVA Thickness 1/4" Durometer 50	→	
PORON® Cushioning Thickness 1/8" Durometer 29	→	

The WCS™ Wound Care Shoe System is the product of choice when dealing with lesions through Wagner Grade 3 ulcerations. The four multi-density insoles can be modified, effectively decreasing pressure from the plantar aspect of the foot.

- › Product of choice when dealing with Wagner Grade 3 ulcerations.
- › Ultra-soft Plastazote® lining provides a virtually friction-free contact surface that won't exacerbate existing wounds (Open-Toe only).
- › Four multi-density insoles allow for the ultimate in customization and precisely targeted long-term off-loading.
