# Symposium Series

2019 SYMPOSIUM SERIES

# New Perspectives in Diabetic Limb Preservation

Wounds Canada is pleased to announce our new Symposium Series and our first program: **New Perspectives in Diabetic Limb Preservation**

**What:** This is a one-day learning event that will include sessions on the medical management of persons with diabetic foot ulcers, vascular considerations, infection, wound management, offloading, the challenges of renal patients and more. Delegates of the symposium will have the opportunity to meet with over 30 key opinion leaders from across Canada and listen to presentations from national and international experts in the field.

**When:** Friday, May 31, 2019

**Where:** DoubleTree by Hilton, Downtown Toronto, 108 Chestnut Street, Toronto ON

**Who:** This event is aimed at health-care providers from a number of disciplines with an interest in this topic and/or who are working with patients with lower limb complications that can lead to amputation, including all types of primary care professionals and specialists such as surgeons, family physicians, pharmacists, nurse practitioners, chiropodists and surgical podiatrists. This event will also be of interest to health-care policymakers.

Included in the agenda:

- Value of Limb Preservation Clinics
- Vascular Topics
- Infection – Diagnosis and Management
- Emerging trends in all topics
